DIFFERENT SIZES CLASSROOMS

Displays supporting HDR10 allows HDR based content to be shown, giving a brighter and more dynamic picture. This is further enhanced due to the support of 4K 60Hz

Available in a variety of large screen sizes, the IFD range gives customers the options to choose exactly what they need for their room size.

FAST AND EASY TO REACH

IFX is specially designed for education needs such as front facing powerful speakers, pen locations, front input and outputs for quick access with external sources and front
